

Chesterfield

The main characteristic of a "Chesterfield sofa" is its craftsmanship.

The Chesterfield pen is inspired by the famous English sofa synonymous with elegance and quality.

On the body of the pen, we have reproduced the tufted pattern, which consists of regularly and deeply positioned buttons that create a quilted surface on the pen.

The clip is inspired by the armrest known for its classic design and rounded lines.

The Chesterfield sofa is an iconic and classic type of sofa, with a refined and distinctive design that has remained popular for many decades. Its origin dates back to the 18th century, during the reign of King George III, and is named after the county of Chesterfield in the United Kingdom.
